QQA Seal of Recognition

Introduction

Few people have ever been trained to properly convey written information or verbal presentations. Yet, presenting this information in ways which are easily readable and readily understood is fundamental to business success. This course is designed to teach course participants the fundamentals of effective technical report writing, giving them the skills and confidence to generate compact and well-thought out documents, and to present their reports to an audience with convincing and memorable impact

Training Quality Procedures

Assessment:

All assessments will be conducted during the Workshop. Assessment tasks consist of e.g.: Quizzes, Practical discussions, case studies, role plays, onsite Exercises, hands-on.

Certificates:

Certificates will be awarded to the learners who pass in the assessments and completed at least 75% of the attendance report.

Course Language:

English

Progress Reports:

Progress and attendance reports linked to the specifications for the reporting period will be sent to the company of each learner. This report will list learner's progress and achievements with respect to the appropriate section of the syllabus, indicating the progress made towards the training objective.

Objectives & Benefits

Participants on this course will gain tools, learn techniques and practice skills leading to increased technical writing confidence, and improved verbal presentation skills.

Participants will improve their ability to package and deliver a business or technical presentation to an audience on the topic of a technical report

Methodology

This seminar is interactive, allowing for active participation and skills practice during sessions. There will be several short lectures, followed by case studies, videos, practical assignments and group discussions.

Learners are required to bring their laptop for workshop and actual practice

Who should attend?

Any staff member who is beginning to take responsibility for generating and conveying technical business information in English will find this course essential. It is aimed primarily at technical staff, but administrative support staff may also benefit from attendance on this course.
